## PROFILE

My most recent jobs were Construction engineer and Supply manager, but I was always passionate about creating something that people can enjoy and use in everyday life. So I finally decided to change flow of my life and start learning to become a web developer. After finishing Vilnius Coding School I realized that this is what I was looking for. So now I am open for a job or intern place to help your company and also develop my skills.

## EDUCATION

### Online course

2022-06 - 2022-07 | Udemy.com  
Responsive website with HTML and CSS

I have strengthened my HTML and CSS fundamentals by building responsive and pixel perfect design websites without using any frameworks so that I could fully understand how it works.

### Vilnius Coding School

2022-05 - 2022-06  
Web development (full stack) course

I got strong web development fundamentals by learning how to build web framework with HTML5, style it using CSS3, make it dynamic with JavaScript and also I got basic understanding on how to work with PHP language and MySQL database.

### Kaunas Technical College

2016 - 2019  
Bachelor of Civil Engineering

## EXPERIENCES

### Supply manager

2021 - 2022 | UAB "Kaunakiemis"

- Coordinated and accepted supply orders with clients and companys
- I was responsible for filling bills of lading

### Construction engineer

2020 - 2021 | UAB "Inžinieriai"

- Designed and updated construction drawings

## SKILLS

- HTML/CSS skills
- Responsive design skills
- JavaScript skills
- Bootstrap framework skills
- Ability to make pixel perfect projects from psd or figma files

## LANGUAGES

Lithuanian native

English average

## OTHER SKILLS

- Detail oriented
- Interpersonal
- Passion and drive to expand my coding skills
