ENTRY LEVEL FRONT-END WEB DEVELOPER

LUKAS DAUGĖLA

PERSONAL PROFILE

Most of the time I used to work in constructions. After college I started to work as a
Construction Engineer, but after a while I realized, that this kind of job is not for me. Later I tried my self as a Supply Manager, but this job was mostly for building my self confidence and money so that I could start learning to make websites and after almost one year I started learning web development full time. Finished Vilnius Coding School and now looking for a job while developing my skills by creating various projects.

AREAS OF EXPERTISE

- HTML, CSS experience
- JavaScript experience
- Bootstrap experience
- I am able to make pixel perfect projects from psd or figma files
- English knowledge speaking – b1 writing – b1

OTHER SKILLS

- Detail oriented
- Always making websites responsive to all devices
- I have passion and drive to expand my coding skills
